Adding Justice to the World To create A Just World By Adjusting the World

AdJustWorld's intention is to assist people in reconnecting with the Source of all Life. We know that by helping people to re-member who they are - Divine Beings - they will choose to express greater levels of Love towards themselves and their fellow Human Beings. We will make higher conscious choices about our 'internal environment' which will automatically change our choices toward our external environment.

A vision was shown of a way to assist in bringing Peace to the World. There is an ancient saying, "As within so with out". It has been said that "we will never get any closer to God than we already are, we only need to improve our awareness of our connection".

Through Pure Chiropractic adjustments 'inter-fear-ences' are released allowing Life to be expressed in its Full Potential!

To empower another is a courageous act of LOVE and VISION

AdJustWorld fundraisers generate donations for food, clothing and school supplies. Funds collected support sustainable living programs such as:

- Nutrition via greenhouses
- The Arts - dance, music, yoga, martial arts, etc - creating a life without drugs, crime, and poverty consciousness.
- Skills classes for women (sewing, cooking ...) so they can feed their children without prostituting themselves.
